INDEX OF TECHNICAL PAPERS

A

Air Conditioning, Simulation of Cooling and Heating Loads Under Intermittent Operation of, K. KIMURA 85

Ammonia from the Computer, Some Properties of, P. W. ROGAN 138

ANTONETTI, V. W., G. R. ARENT, O. R. GUPTA, A New Method for Predicting Transient Thermal Behavior of Liquid Systems 230

Application of the Theory of Extreme Values to Hot Water Consumption Data, The, W. S. HARRIS 212

ARENT, G. R., V. W. ANTONETTI, O. R. GUPTA, A New Method for Predicting Transient Thermal Behavior of Liquid Systems 230

B

BLAZIER, W. E. JR., Chiller Noise: Its Impact on Building Design 268

Boiling and Non-Boiling Heat Transfer Coefficients in 180 Degree Pipe Bends, L. PUJOL 252

Branch Spacing on the Loss Coefficient of Divided Flow Fittings, The Effect of, C. F. SEPSY, R. E. KNOTTS 205

BRECKENRIDGE, J. R., R. F. GOLDMAN, Human Solar Heat Load 110

Building, A Field Experiment Study on the Convective Heat Transfer Coefficient on Exterior Surface of a, N. ITO, K. KIMURA, J. OKA 184

Building Design, Chiller Noise: Its Impact on, W. E. BLAZIER, JR. 268

C

Chiller Noise: Its Impact on Building Design, W. E. BLAZIER, JR. 268

Climate Controlled and Non-Climate Controlled Schools, The Thermal Comfort of Students in, R. D. PEPLER 97

Clothing Ensembles, Thermal Insulating Values for Typical Indoor, O. SEPPANEN, P. E. McNALL, D. M. MUNSON, C. H. SPRAGUE 120

COATES, D. A., E. B. QVALE, W. SOEDEL, M. J. STEVENSON, J. P. ELSON, Problem Areas in Mathematical Modeling and Simulation of Refrigerating Compressors 75

Comfort in the Elderly, Thermal, F. H. ROHLES, JR., M. A. JOHNSON 131

Comfort of Students in Climate Controlled and Non-Climate Controlled Schools, The Thermal, R. D. PEPLER 97

Compression Refrigeration Systems, Thermodynamic Analysis of, R. SWERS, Y. P. PATEL, R. B. STEWART 143

Compressors, Problem Areas in Mathematical Modeling and Simulation of Refrigerating, E. B. QVALE, W. SOEDEL, M. J. STEVENSON, J. P. ELSON, D. A. COATES 75

Computer, Some Properties of Ammonia from the, P. W. ROGAN 138

Cooling and Heating Loads Under Intermittent Operation of Air Conditioning, Simulation of, K. KIMURA 85

Cooling, Weather Data Related to Evaporative, L. W. CROW 153

Convection, A Numerical Analysis of Frost Formation Under Forced, H. C. PARISH, C. F. SEPSY 236

Convection from Horizontal Rectangular Cylinders of Various Aspect Ratios, Natural, M. H. HAHN, D. A. DIDION 262

Convective Heat Transfer Coefficient on Exterior Surface of a Building, A Field Experiment Study on the, N. ITO, K. KIMURA, J. OKA 184

CROW, L. W., Weather Data Related to Evaporative Cooling 153

Cylinders of Various Aspect Ratios, Natural Convection from Horizontal Rectangular, M.H. HAHN, D. A. DIDION 262

D

DIDION, D. A., M. H. HAHN, Natural Convection from Horizontal Rectangular Cylinders of Various Aspect Ratios 262

Divided Flow Fittings, The Effect of Branch Spacing on the Loss Coefficient of, C. F. SEPSY, R. E. KNOTTS 205

E

Effect of Branch Spacing on the Loss Coefficient of Divided Flow Fittings, The, C. F. SEPSY, R. E. KNOTTS 205

Effect of Louvered Sun Screens Upon Fenestration Heat Loss, J. I. YELLOTT 199

Elderly, Thermal Comfort in the, F. H. ROHLES, JR., M. A. JOHNSON 131

Electric Self-Contained Multizone HVAC Unit for Annual Energy Analysis, Simulation of an All-, D. R. WITT 38

ELSON, J.P., E. B. QVALE, W. SOEDEL, M. J. STEVENSON, D. A. COATES, Problem Areas in Mathematical Modeling and Simulation of Refrigerating Compressors 75

Energy Analysis, Simulation of an All-Electric Self-Contained Multizone HVAC Unit for Annual, D. R. WITT 38

Evaporative Cooling, Weather Data Related to, L. W. CROW 153

Experiment Study on the Convective Heat Transfer Coefficient on Exterior Surface of a Building, A Field, N. ITO, K. KIMURA, J. OKA 184

Exterior Steel-Stud Frame Walls, Thermal Performance of, J. R. SASAKI 192

Exterior Surface of a Building, A Field Experiment Study on the Convective Heat Transfer Coefficient on, N. ITO, K. KIMURA, J. OKA 184

Extreme Values to Hot Water Consumption Data, The Application of the Theory of, W. S. HARRIS 212

F

Field Experiment Study on the Convective Heat Transfer Coefficient on Exterior Surface of a Building, A, N. ITO, K. KIMURA, J. OKA 184

Fittings, The Effect of Branch Spacing on the Loss Coefficient of Divided Flow, C. F. SEPSY, R. E. KNOTTS 205

Flow Fittings, The Effect of Branch Spacing on the Loss Coefficient of Divided, C. F. SEPSY, R. E. KNOTTS 205

Foods, Thermal Conductivity of, M. S. QASHOU, R. I. VACHON, Y. S. TOULOUKIAN 165

Forced Convection, A Numerical Analysis of Frost Formation Under, H. C. PARISH, C. F. SEPSY ... 236

INDEX OF TECHNICAL PAPERS

A

Air Conditioning, Simulation of Cooling and Heating Loads Under Intermittent Operation of, K. KIMURA 85

Ammonia from the Computer, Some Properties of, P. W. ROGAN 138

ANTONETTI, V. W., G. R. ARENT, O. R. GUPTA, A New Method for Predicting Transient Thermal Behavior of Liquid Systems 230

Application of the Theory of Extreme Values to Hot Water Consumption Data, The, W. S. HARRIS 212

ARENT, G. R., V. W. ANTONETTI, O. R. GUPTA, A New Method for Predicting Transient Thermal Behavior of Liquid Systems 230
